

IMR Placements.

We are partnered with the University of Surrey to offer a month long placement to their final year veterinary students who are on rotation. Our aim is to give them as much hands on experience as possible in a first opinion practice. We don't accept any other students during this time.

EMS Placement

We remember what it's like to be a veterinary student and aim to give anyone who see's practice with us the best possible experience. We only take one student at a time and organise for you to work with different vets and nurses during your time with us. Being able to drive is essential due to our remote location and the occasional need to drive yourself to visits. We work with World Horse Welfare and Munchkins Miniature Shetlands to name but a few charities that we provide veterinary care for.

If you would like to apply for EMS with us please email workexperience@summerleaze-vets.co.uk

School and College Students

The Summerleaze Team think it's important to encourage young people to become our vets of the future. We offer work experience placements from Year 10. We only take one student at a time and organise for you to work with different vets and nurses during your time with us. We have a high demand for these placements and students wanting pursue a career in veterinary practice take priority. We would ask you to engage with the team and bring suitable protective clothing for all weathers along with sensible shoes and wellington boots.

We ask that you apply in writing with a CV showing your work
